

Integrated Pest Control Policy

Parent/Guardian,

The Board of Education has adopted a policy to provide students and staff with an environment that is free of pests, pesticides, and harmful chemicals to the extent required by law. The Integrated Pest Management Program (IPM) includes routine inspections or surveys of all school facilities and various strategies to prevent pests from becoming a problem. Pesticides are used only as a last resort and parents will be notified prior to a pesticide application in a school building or on school grounds.

I acknowledge that I have received this notice:
